

In association with Bentley User Group Victoria Australia proudly present

MicroStation and the Open Modelling Environment Workshops

Bentley Systems Trainer
Sheila Montgomery – Senior Consultant – Civil Infrastructure

DATES AND VENUES

Tuesday April 16 th	-	Arcadis, Level 32 140 William Street Melbourne Vic. 3000
Wednesday April 17 th	-	Tract Consultants, Level 6, 6 Riverside Quay, Southbank, Melbourne 3006
Thursday April 18 th	-	CPB Contractors, Level 6, 567 Collins Street Melbourne VIC, 3000

Bentley Systems' MicroStation technology underpins all of Bentley's Open applications, where users can produce multidiscipline deliverables and accomplish multidiscipline clash resolution from any Open application. Bentley's open modelling environment is 'Open' for collaborative digital workflows. The CONNECT Edition enables project delivery through the open modelling environment, through MicroStation and the Open applications, and project collaboration through ProjectWise.

*At this day-long MicroStation CONNECT Edition Workshop, Sheila will show users some of the tools and functions that they can use, and how MicroStation allows users to deliver projects smarter: **Refer to Agenda.***

With proven technology, users can confidently take on any design, construction, or operations project. No matter what design information users are working with or what kind of deliverables are required, users can rely on MicroStation's flexibility and power to get the job done on time and on budget. MicroStation provides traditional CAD capabilities and the power and versatility to precisely view, model, document, and visualize information-rich 2D and 3D designs of all types.

There will be a choice of three workshop sessions to cater attendee's needs. Spaces are limited to 15-20 participants for each workshop. Preference will be given to the first registered.

Registrations close April 5 2019

Please Note Prerequisites for attendees.

To Register:

Click the **REGISTER NOW** link and include in the email:

Your Name:

Your email address:

Your Company Name:

And indicate the workshop event date you prefer (16th 17th or 18th)

Prerequisites for attendees:

- Standalone laptops with **MicroStation CE update 12**, or any of the Open products incorporating **MicroStation CE Update 12** installed and operational prior to attending. **For product versions that include MicroStation update 12 click here <https://bugva.org/coming-events/>**
- Associated power supply etc.
- Ensure the license is working when disconnected to the internet prior to attending. Generally, if you have a valid license and have been connected online in the previous 7 days then it should be ok. If you were disconnected for more than 7 days then the license may not allow access until you connect online again.
- A temporary licence for the workshop may be available if required, Please ask when you register.
- For more info on license activation see:
https://communities.bentley.com/products/licensing/w/licensing_wiki/8181/activation
