

In association with Bentley User Group Victoria Australia proudly present

OpenRoads Designer Workshop For Designers

Presenters: Paul Cusack, Bentley Systems

Dates: – November 19th and 20th 2019 at Jacobs
Melbourne Office 452 Flinders Street, Melbourne

BUGVA is very grateful to **JACOBS** for sponsoring these events in providing the venue and catering. BUGVA also thanks **Bentley Systems** for their help and support.

Who should attend: Road Designers - Workshops will be tailored to assist designers with advanced topics and further develop existing knowledge and expertise with OpenRoads Designer. (ORD)

Topics on all three days: (Subject to change to suit designers requirements on the day)

- Complex Terrains.
- Templates Display Rules.
- Civil Cells: Editing, Creating and Best Practices.
- Asset Manager: usage for adding intelligence (item types) to models.
- **Ask the User Group Q & A Session** (Opportunity to ask Paul Cusack and any other member's specific ORD issues). [To assist with this session please provide questions, concerns, example files to BUGVA before Thursday 11th November.](#)
- Infrastructure Standards: Brief discussion preparation for the following BUGVA event on **Wednesday 27th November**

When registering: please nominate your preference of topics, and send us your questions you would like to be considered for the Ask the User Group Q & A Session:

Workshop Times:

Registrations will **start at 9:15am** to be ready for a **9:30am start**, and the workshops will **finish at 5:00pm**
